PeakTrace
PEPTIDE ANALYTICS

Certificate of Analysis

Retatrutide / PT-COA-2026-0015
Version 1

ISSUED BY
PeakTrace

PERFORMING LABORATORY
PeakTrace

SAMPLE ID
PT-S-2026-0011

DECLARED COMPOUND
Retatrutide

DECLARED QUANTITY
20 MG

BATCH / LOT
-

TEST DATE
10-9-2026

ISSUE DATE
10-11-2026

Declared values are supplied by the customer and are recorded separately from measured results.

PRODUCT PHOTOGRAPH

The vial as received. A photograph records what arrived; it does not establish that the pictured container holds the material analysed.

ANALYTICAL RESULTS

Parameter	Specification	Result	Assessment
Retatrutide	20 MG	**20 mg**	Not assessed
Purity	Minimum 99%	**99.81%**	Within specification

OVERALL
All reported parameters are within the stated specification. This applies to the sample analysed and to the scope described above only.

VERIFY THIS REPORT
Scan the code, or look up PT-COA-2026-0015 at www.peaktrace.ca/verify. The code opens this record directly, so treat a printed copy as you would the report itself.

Client: Elysium Bio Labs
Findings apply to the vial analysed and not to any other unit.
A purity percentage is a proportion of the material analysed. It does not establish sterility or suitability for use.
Findings apply to the sample analysed. This document does not establish that other units are identical, nor that the material is sterile, effective or safe to use.
